

CRAZY CLAY

THE WORLD'S SOFTEST, LIGHTEST CLAY

TECHNICAL DATA SHEET

SMART ADVANTAGES

- AIR-DRYING, CRACK FREE
- EXTRA SOFT FOR LITTLE HANDS
- SUPER ELASTIC AND EASY TO MOULD

DESCRIPTION

Bostik Crazy Clay is the world's softest and lightest modelling clay. It is super elastic, easy to mould, and air dries without shrinkage or cracking. It is non-toxic and is a perfect modelling clay for young children. It comes in a pack containing six bright colours: red, yellow, purple, white, blue and black.

APPLICATIONS

Ideal for school projects, art & craft applications as well as increasing your child's creativity. Also suitable as a therapeutic putty for hand and finger rehabilitation exercises.

LIMITATIONS

Not suitable for children younger than 3 years of age.

SAFETY INSTRUCTIONS

Bostik Crazy Clay is non-toxic. The product poses a choking hazard if ingested. In the event of ingestion, the mouth should be washed with water. Seek medical assistance if irritation or discomfort persists. Refer to our Safety Data Sheet for further toxicological information and comprehensive handling instructions.

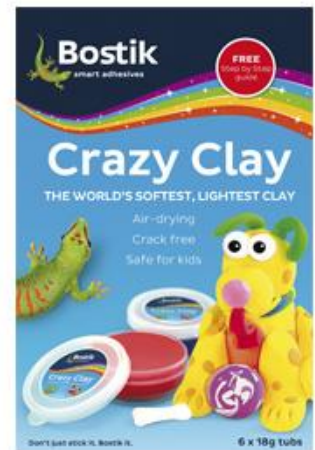

HOW TO USE

1. Mould, elongate, twist and shape to create objects and creations of various sizes and shapes.
2. Use the colour mixing guide provided inside the pack to create additional colours.
3. Press Bostik Crazy Clay parts together to form your creations.
4. Once your creation is complete, allow to air-dry for 6 hours. Final drying time will depend on the thickness of your creation. Do not oven bake.
5. Keep unused clay in its original air-tight container to prevent drying. Ensure that the tub is tightly sealed.
6. Before clay is completely dry, you can remodel it by spraying with water.
7. Once dried and set, creations can be protected by varnishing.

HANDY HINTS

To create different colours, mix the following together:

- Red + Yellow = ORANGE
- Yellow + Blue = GREEN
- White + Purple = LILAC
- White + Blue = LIGHT BLUE
- White + Red = PINK
- Red + Yellow + Black = BROWN

STORAGE STABILITY

Bostik Crazy Clay has a shelf life of at least 12 months if stored in a cool (below 25°C), dry place in its original moisture-tight container. To maximize the shelf life of the opened container, ensure that the packaging is closed tightly when not in use. If the material is kept beyond the recommended shelf life, it is not necessarily unusable, but a check should be performed to observe whether the product is still workably.

PRODUCT PACKAGING

Box with 6 x 18g tubs
