

How to create a paper Easter basket

You will need:

- 1 x Easter basket template printed on white card or paper
 - Coloured pens, pencils or paints
 - Blu Stick
 - Scissors
 - Tissue paper
- Optional**
- Glitter Glue pens
 - Small or Medium Foam Pads
 - Extra Strong Glu Dots
 - Craft embellishments

1. Print the Easter basket craft template onto white card or paper. You may want to have a couple spare in case of mistakes.
2. Colour in the template as desired using pens, pencils, paints, Glitter Glue or similar. We also recommend personalising each of the chicks with googly eyes, sequins or stickers!

Tip

Remember to stay within the lines and to shade carefully so there aren't any white gaps. Use Extra Strong Glu Dots to add craft embellishments or Small or Medium Foam Pads to create 3D effects.

Important

Step 3 includes using scissors. Please ensure children are supervised when using scissors and if necessary, an adult should complete the cutting on behalf of a child.

3. Next, carefully cut out the Easter basket and handle from the template.
4. Then, fold each square and the 'glue here' tabs along the dotted lines.
5. Apply Blu Stick to the 'glue here' tabs and stick to the adjoining basket edge. Repeat this step until all of the tabs are attached to form a box shape.
6. Finally, fold your handle along the dotted line and then apply Blu Stick to each end. Attach to the inside of your box to finish your paper Easter basket.

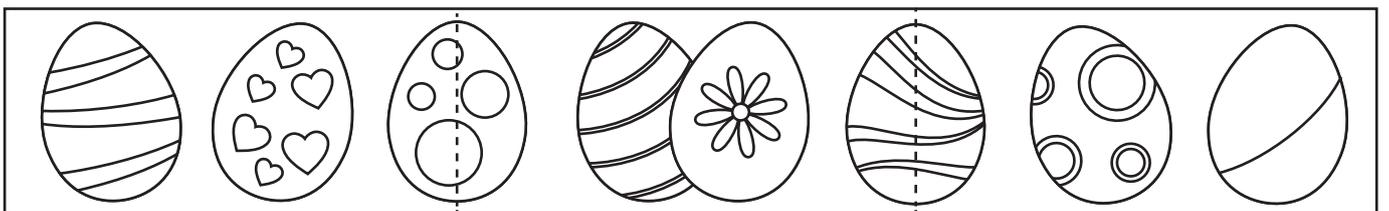

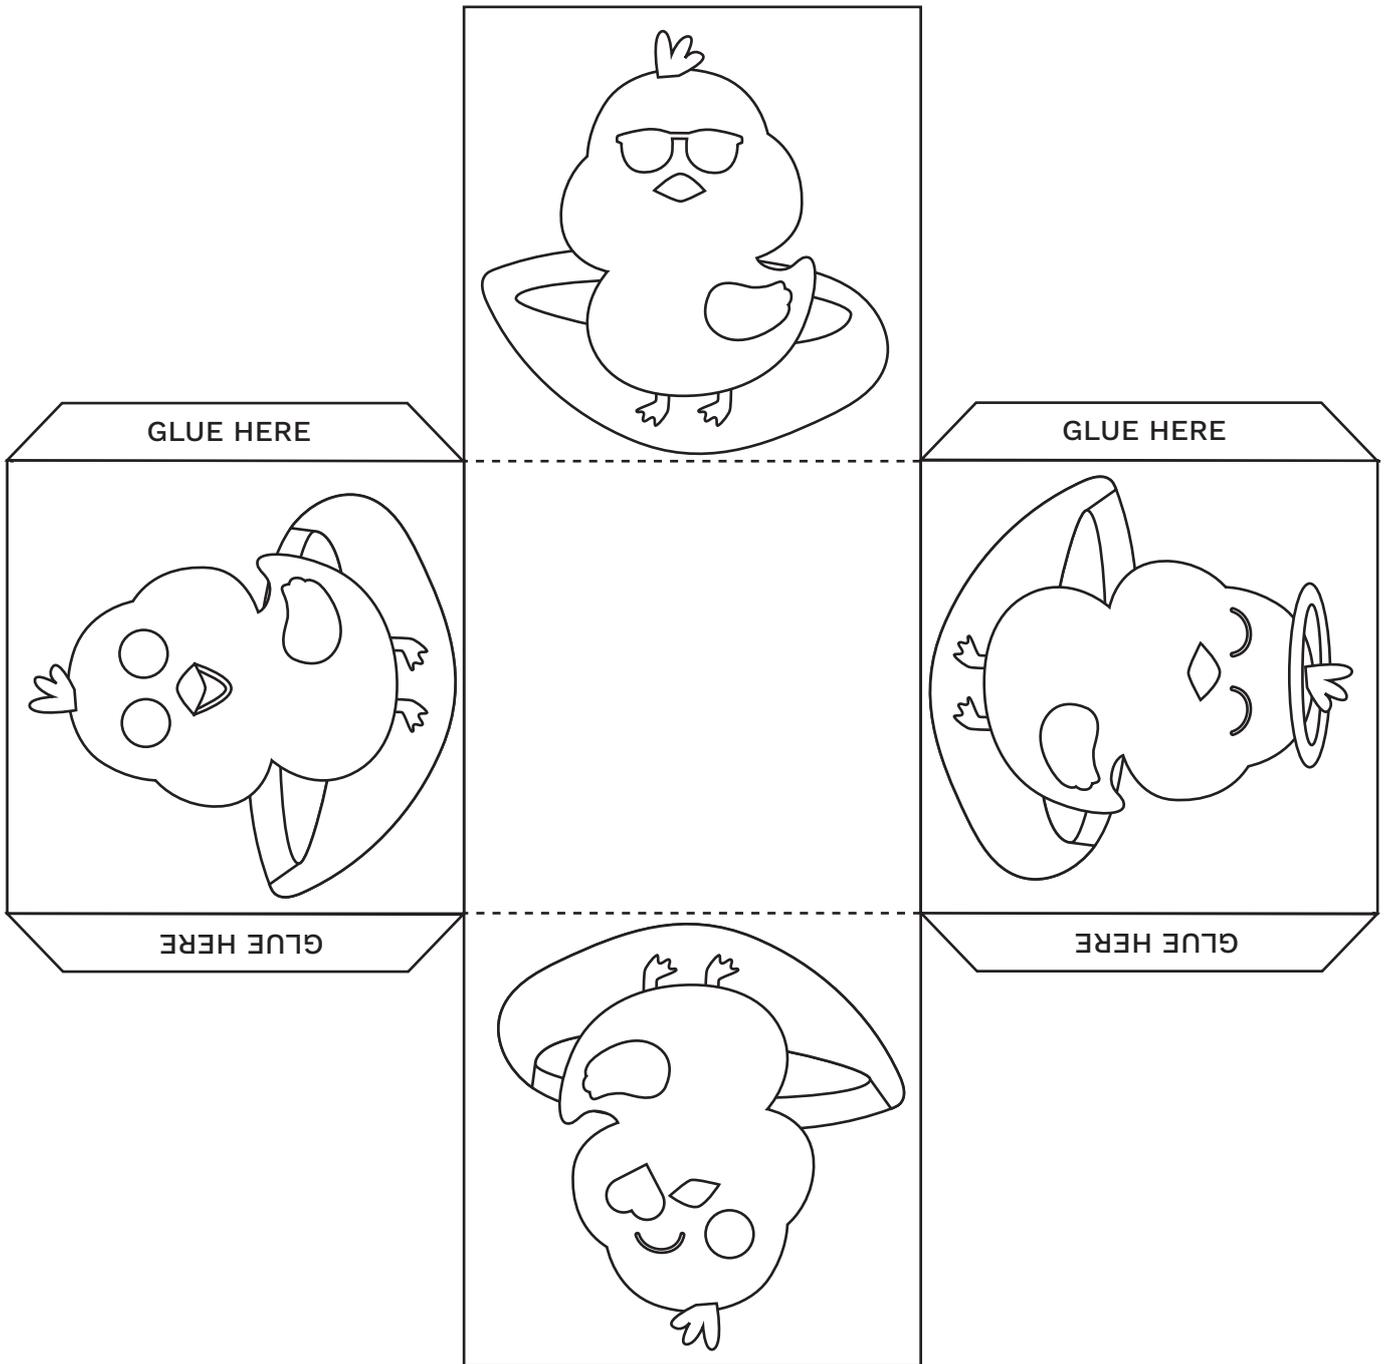

Tip

Once your Easter basket is dry, add ripped tissue paper to create your 'nest'. Then, use it to carry your chocolate eggs when you're out and about Easter egg hunting!
