

## QUICK GLU

### NON-AEROSOL SPRAY GLUE

TECHNICAL SHEET 30/04/2025

#### SMART ADVANTAGES

- **Goes on purple** to show where you've applied it, and **dries clear** for a seamless finish
- **Easily wipes away** if necessary, simplifying clean-up
- **Acid-free:** Safe for photos and delicate materials, preserving them over time
- **Solvent-free formula:** a safer choice for you and the environment
- **Non-aerosol spray** that's safe and easy to use

#### DESCRIPTION

Bostik Quick Glu Instant Bond Spray is a versatile adhesive that delivers an ultra-strong bond. The convenient bottle is ideal for quick applications at home, school, or in your workspace.

#### TECHNICAL CHARACTERISTICS

<b>Colour</b>	Goes on purple, dries clear
<b>Form</b>	Liquid
<b>Bonding Times</b>	Full cure typically takes 24 to 72 hours or more after assembly, depending on bond gap, materials and ambient conditions
<b>Capacity</b>	29ml
<b>Product codes</b>	30629595

#### TYPICAL PERFORMANCE DATA (Approx.)

<b>Solid Content</b>	37%-43%
<b>Specify gravity</b>	1.00 - 1.10 g/cm3
<b>PH Value</b>	9.0-11.0

## APPLICATION

Read and understand the Safety Data Sheet before using this product. SDS can be acquired by visiting [www.bostik.com.au](http://www.bostik.com.au)

## SURFACE PREPARATION

1. Ensure that surfaces to be bonded are clean, dry, and free from grease, oil, dust, and other foreign materials.

## APPLICATION

2. Shake the bottle well before you start
3. Protect the surrounding area to avoid overspray
4. Hold the bottle away from the surface you're bonding and aim the spray button away from yourself
5. Apply a thin, even layer of spray. For more porous materials, apply a heavier coat to both surfaces if needed
6. Bring the surfaces together and press them down firmly while the adhesive is still tacky. Drying times may vary depending on the material

**IMPORTANT:** After each use, clean the nozzle to prevent clogging. Remove the nozzle/straw from the bottle, flush it with warm water until clear, dry it, and then reattach it securely.

## CLEANING

1. If the adhesive is still wet on fabrics or porous surfaces, wash it off quickly with warm soapy water. Repeat if needed, then rinse and dry
2. Dried adhesive on smooth, non-porous surfaces can be rubbed off or cleaned with warm soapy water

**PLEASE NOTE:** once dried on fabric, the adhesive is difficult to remove.

## STORAGE

Store in a cool dry place between 5 to 25° C and out of direct sunlight. Shelf life is 12 months from the date of manufacture when stored as directed.

## PRECAUTION IN USE

Not suitable for damp, delicate, absorbent or newly decorated surfaces. If in doubt, test a small area first. The adhesive gets stronger with time, so take care when removing. Recommendations and suggestions are for guidance only since conditions of use are completely beyond our control. Not suitable for children under 36 months due to small parts - choking hazard. If contact occurs, wash area with water.

## HEALTH & SAFETY

Always read the Technical Data Sheet and Safety Data Sheet (SDS) before handling or use. Full product safety information required for safe use is not included in this data sheet. SDS available by request or at [www.bostik.com.au](http://www.bostik.com.au)

The application recommendations are defined by standards of use. They are imperative to respect them, but they don't need a previous try, especially for a first use or inconvenient of support, site or environment. Consult our safety data sheets for precautions to use.

## DISCLAIMER
